

## 20 KEYS OF CONSCIOUS CREATION

### Guiding Principles of the Unified Field

As our world enters into deeper levels of the planetary shift with resultant escalations of unfolding drama, we are continually being reminded about where we place our attention.

The act of focusing our awareness with positive group consciousness in the Unified Field is one way that we can greatly assist the consciousness shift while remaining centered and balanced as the old power structures dissolve.

The lunar Planetary Grid Transmissions offers an opportunity twice per month to join in an intentional group consciousness field of expanded perception. This conscious union of our energies has tremendous influence upon the manifestation of our intentions and the transmissions of transforming light and unity consciousness.

The "20 Keys of Conscious Creation" were brought through by Gregg Braden and in his literary sharing on the Divine Matrix. ***This advanced matrix is the number one focus and foundational alignment for the platform of Children of the Sun.***

 The Divine Matrix (Unified Field) is the container that holds the universe, the bridge between all things and the mirror that shows us what we have created.

 Everything in our world is connected to everything else.

 To tap the force of the universe itself, we must see ourselves as part of the world rather than separate from it.

 Once something is joined, it is always connected, whether it remains physically linked or not.

 The act of focusing our consciousness is an act of creation. Consciousness creates!

 We have all the power we need to create all the changes we choose!

 The focus of our awareness becomes the reality of our world.

 To simply say that we choose a new reality is not enough!

 Feeling is the language that "speaks" to the Divine Matrix. Feel as though your goal is accomplished and your prayer is already answered.

 Not just any feeling will do. The ones that create must be without ego and judgment.

-  We must become in our lives the things that we choose to experience as our world.
-  We are not bound by the laws of physics as we know them today.
-  In a holographic "something" every piece of the something mirrors the whole something.
-  The universally connected hologram of consciousness promises that the instant we create our good wishes and prayers they are already received at their destination.
-  Through the hologram of consciousness, a little change in our lives is mirrored everywhere in our world.
-  The minimum number of people require to "jump-start" a change in consciousness is the square root of one percent of a population.
-  The Divine Matrix (Unified Field) serves as the mirror in our world of the relationships that we create in our beliefs.
-  The root of our "negative" experiences may be reduced to one of three universal fears (or a combination of them): abandonment, low self-worth or lack of trust.
-  Our true beliefs are mirrored in our most intimate relationships.
-  We must become in our lives the very things that we choose to experience in our world.
